

QUALIFICATION OF ORIGINATING STATUS

Summary of evidence for originating status in accordance to CPTPP Chapter 3

Invoice

Date: 1 June 2026
Invoice number: 2026/VOC-4409
Blanket period: N/A

No.	1
Description	Hatsune Miku Figurine (初音ミク) - Juguete de plástico
HS Code	9503.00
Criterion	ACU - Accumulation

Data

Part number miku-v4x-001
Effective date 1 January 2026
Expiration date 1 December 2026
Part description Hatsune Miku Figurine (初音ミク) - Juguete de plástico
Shipping from Vietnam
Shipping to Mexico
Inventory value 20.00
Free on board value 20.00
Analysis date 1 June 2026
Status **PASSED**

Bill of materials

Component description	HS code	Origin	Value
Hatsune Miku Figurine (初音ミク)	9503.00.00	Vietnam	\$20.00
└ PVC Plastic Pellets	3904.10	China	\$5.00
└ Acrylic Paint Sub-component	3208.20	Japan	\$2.50
└ Cardboard Packaging Box	4819.10	Vietnam	\$1.50

Value of non-originating materials: \$5.00
Total regional value content (build-down): 75.00%

Qualifying basis

Under the CPTPP accumulation provision, the finished good qualifies as originating because production or materials from other CPTPP member countries were successfully aggregated to meet the rules of origin.

Specifically:

- Requirement: Chapter 95 Product-Specific Rules (PSR) mandate a minimum 45.00% Regional Value Content (RVC) using the Build-Down method.
- Result: The cptpp-calc engine verified that the Bill of Materials (BOM) achieved an RVC of 75.00%, exceeding the threshold.

Reference to CPTPP text

Tariff Heading 95.03 (Toys, games and sports requisites)

A change to subheading 9503.00 from any other chapter; or No change in tariff classification is required, provided there is a regional value content of not less than: (a) 45 percent under the build-down method; or (b) 55 percent under the build-up method.

EXPLANATION OF ORIGIN

Manual justification for originating status in accordance to CPTPP Chapter 3

Invoice

Date: 1 June 2026
Invoice number: 2026/VOC-4409
Blanket period: N/A

No.	2
Description	Kagamine Rin & Len Acrylic Display Stand, Custom Made for Miku Expo 2026 Asia
HS code	3926.40
Criterion	PE - Goods produced exclusively from originating materials

Data

This specific production run covers the manufacture of custom acrylic display stands produced at our regional facility for the Miku Expo 2026 Asia event. The calculations utilize active inventory values and fixed manufacturing overhead logs recorded on June 1, 2026, to verify compliance for a single, direct export shipment moving from our hub in Vietnam to the importer's delivery address in Mexico.

Bill of materials

All PMMA sheets, inks, and chemicals come from qualified CPTPP suppliers. Every input holds a valid declaration, leaving non-originating value at zero. Attached to this PDF is the Bill of materials.

Qualifying basis

The product qualifies under the PE criterion. With non-originating materials at 0.00%, the Regional Value Content score is a perfect 100%.

Reference to CPTPP text

In accordance with Chapter 3, Article 3.2, Paragraph 1(b) of the CPTPP Agreement, a good shall be treated as an originating good if it is produced entirely in the territory of one or more of the Parties, exclusively from originating materials. Since our manufacturing process relies solely on qualified inputs from regional signatories, the final display stands successfully satisfy the core preference requirements without needing a tariff classification jump.

Other remarks

All associated commercial invoices, supplier certificates of origin, and raw material batch receipts are securely cataloged and archived in our compliance database. These records will be held for the legally required retention period and remain readily accessible for electronic audit verification or physical inspection by customs authorities upon request.
